Zipline Bucketless Mopping System!

The Power of Microfiber That Moves!

Benefits of using Microfiber

- Absorbs up to seven times their weight in liquid.
- Non-Abrasive.
- Hypo-Allergenic.
- Reduced drying times up to 77%.
 - Reduction in chemical use by up to 95%.
- Withstand hundreds of washings before needing replacement.
- EPA recommended.
- Removes 98% of bacteria with just tap water.

Benefits of using Tuway's Bucketless System

- Ergonomic design – lets the floor carry the weight, no lifting or wringing.
- No "specified" chemicals or cleaners needed
 - Lint-free microfiber mop head.
- Reduces cleaning time by up to 44%.
- Exclusive "free-flowing" feature allows mop to move easily over any hard surface.

The Bucketless System is also a part of Tuways exclusive "StagePlus" process cleaning system.

The Bucketless can be used in "Stage III" for damp/wet mopping, and also "Stage IV" for applying floor finish.

Women owned and family operated, Tuway has been producing quality products since 1923

The Tuway Zipline Bucketless Mopping System

Tuway's Bucketless system is just one product in its innovative microfiber line-up of products that make-up our exclusive five stage "StagePlus" cleaning program. We have developed a complete cleaning program and have matched our products to give you the most beneficial, cost effective, and maximum performance cleaning in the industry! And many products are also part of our "GreenPlus" - green cleaning program, to help fill-out any green-cleaning applications.

ZIPLINE BUCKETLESS MMS-K18 and MMS-K24

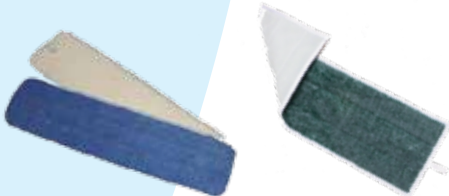

Our Bucketless System has many exclusive features, including: Easy-to-use push button flow control handle, a standard anti-clogging debris filter with easy locking filler top, a translucent, large capacity 52oz. holding tank, and a convenient full width dispensing velcro style frame attachment, for fast mop-head changes.

Ideal for all hard floor cleaning, and especially useful where hard-floor cleaning is contained in a carpeted area. No need to tote messy mops, bucket or wringers to these areas!

TWT-67PMP-HDL

Our Pump-Handle is a lightweight system that is ideal for quick clean-ups, washing walls, windows or tiled areas. A 67" aluminum handle operates a 16oz. container. Easily attaches to our 18" or 24" aluminum frame for use with many of our microfiber pads.

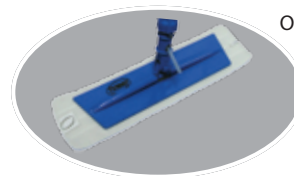

See our catalog for a complete line of microfiber damp-mops for the Bucketless System, or contact your Tuway Representative.

52 oz. Tank with strainer filler

Gravity fed, free-flowing dispensing system

Durable, launderable microfiber pad included

Our MMS-24 is also ideal for applying floor finish in an even, consistent fashion
